What is industrial design

A row of seven handcrafted paper rockets is arranged diagonally on a wooden surface. Each rocket is made from white paper and features different colorful patterns and designs. The rockets are attached to long, thin sticks with various patterns: blue and white polka dots, yellow and white stripes, and blue and white polka dots. The rockets are decorated with various colors including blue, green, yellow, and pink. The text "A Gift for grand children & Have fun prototyping" is overlaid at the bottom of the image.

A Gift for grand children & Have fun prototyping

“I love color!”
